UHIP Media Update – Friday, January 20, 2017

Hello:

Attached you will find the weekly UHIP metrics report, which shows the status of applications in the new, integrated health and human services eligibility system. In an effort to provide more comprehensive information, we have broken down these numbers by program and by each week going back to the launch date. As a reminder, we will continue to provide updates in this format on a weekly basis.

A few notes: this data is raw, preliminary, and has not yet been subject to quality control. You may notice some numbers have changed from week to week. These numbers reflect a snapshot of real-time data, which moves quickly and changes from day-to-day. This is going to happen as applications move past preliminary review and are re-classified by program. We are continuously working with our vendor and partners to improve data reporting, and will highlight changes and additions to our format as we move forward.

Some highlights of this report:

- About 39% of work-in-progress, non-duplicate applications are awaiting further information from applicants before an eligibility determination can be made.
- We have determined eligibility for almost 45,000 applications since the launch of the new eligibility system.
- We have made a concerted effort to intake any SNAP expedited applications and move them forward with a dedicated team. This past week, our non-lobby team has been largely focused on recertifications.
- We have constituted a medical team of specialized DHS eligibility technicians to focus solely on Medicaid verification.
- Please note that Monday, January 16, 2017 was a state holiday.

Thanks,

- Brenna & Ashley
