# RIBridges Incident Management Process and Status

Monday Nov. 6<sup>th</sup>, 2017 (10:00 AM EDT)

## Definitions

An **Incident** is logged as a ticket when a worker raises an item that is not part of the standard operation of UHIP. This may be an enhancement request, a system issue, or something that has the potential to impact the quality of service provided by UHIP.

The **Problem Management Process** is designed to identify, prioritize and resolve incidents; prevent new or recurring problems from happening; and minimize the impact of incidents that cannot be prevented.

# RIbridges Technical Metrics – Incident Backlog Trend (includes problems being fixed)

Monday Nov. 6<sup>th</sup>, 2017 (10:00 AM EDT)
