**1577** P3 incidents  
**44** P4 incidents

### Top Issues Impacting Cases

#	Issue Description	# Cases Blocking Coverage	Root cause	Resolution
1	Converted SSI Cases missing data	26	Four fields from SSP Information are intermittently appearing blank on the front end for various cases.	Multiple root causes with iterative fixing planned 11-16
2	Claim Processing – Unable to post payments for ~250 accounts (RIB-6247, RIB-6241, RIB-6345)	~	Some of the key fields required for claims processing were not converted correctly. Repayment agreement amount is not updated resulting in standard recoupment	<b>Partially Resolved:</b> The issues of the incorrect error type “Agency Error” appearing in Claim Information instead of “Household Error” and the overpayment claims not appearing in Bridges have been resolved. The incorrectly withdrawn recoupment issue fix targeted for 11-18-2016
3	Conflicting verifications for the same data points and issues with external sources	2	231 accounts need manual lookup before a data fix could be done because of the need to check external sources. 2 accounts reported for reasonable explanation are not resulting in income passing.	<b>Partially Resolved</b> - The data fixes for the 231 accounts have been completed however more analysis is needed to determine the root cause of the 2 accounts reported for reasonable explanation not resulting in income passing.
4	MCI tasks not being created for partial matches are blocking applications. MCI task not playable and user not able to proceed.	~	One new issue was identified two weeks ago impacting 12 accounts where a customer has both a SHOP and an Individual QHP account. This new issue will be fixed by 11/5 - The SHOP MCI issue has 1,000 still need to be fixed and validated. One task issue (app error on working a task) planned to be fixed on 11/09	<b>Partially Resolved</b> - Data fixes have been deployed. Code fix in progress targeted for 11/16
5	CCAP Providers – Unable to enroll children or enter attendance information (RIB-3540, RIB-1003, RIB-6641)	30	Enrollment information and attendance screen issues preventing provider payments, analysis in progress.	<b>Resolved</b> - Long Term: Conversion data has been corrected
